### **Architectural division:-**

In the field of architectural design we excel through experience in imagination and implementation to give a clear view to all our clients taking into account their opinions and understanding their proposals whether it is living premises or business premises using the latest engineering programs such as arch cad- Auto cad – 3D Max to bring ideas into virtual reality, through this program, we can give you the real feeling of your premises be it a one floor building, villa, or a multi story. The external design can be presented in many different views suddenness, Arabian, Greek, faros ... etc

### **Civil engineering division:-**

Projects are executed through the latest engineering methods and complete engineering supervision, experience and well trained staff and skilled labor from both local and international, using the latest technology and equipment for all building aspects caring for even the smallest details until the finishing is completed. The best quality building material is used in all our project for specification and standard. Time is of great important to us and our clients, therefore we talk precision in timing and quality.

### **Interior design division:-**

*New quality New vision*

We always dream of a beautiful premise with contrast of colors, integration of furniture, light and space to give the user the feeling of comfort. To achieve this we deal with the best furniture companies both local and international, with the best brand names. The material we use is suitable for Sudanese weather conditions. Advanced engineering programs are used to reflect the interior design of our client's premises before implementation; through our magical touch we can change living premises to business premises and vice versa. Design and execution in Sudan and in other countries are our full responsibility

**Daily and scheduled maintenance service contract:-**

The contract varies from daily, 15 days and monthly according to the agreement between the two parties and the type of services offered. Payments are either every 15 days or monthly, in addition to the maintenance visits monthly or weakly or every 15 days for all clients with discount rates.
